Benches  
Chair**

# HS Stools, Benches, Chair

Made for sitting, standing, a perch for anything.  
For taking it easy and for getting stuff done.

Perfectly at home in design studios and at cafes,  
in schools, colleges, labs, at the archery range,  
for hanging out by the water or in the garden.  
Just about anywhere, indoors and out.

Use everywhere, everyday. Guaranteed for life.

# Materials & Colors

## STOOLS & BENCHES in STEEL

Material / Laser-cut 2mm CRCA Steel

## CHAIR in STEEL

Material / Laser-cut 3mm CRCA Steel

## CHAIR in ALUMINUM

Material / Laser-cut 3mm 6061 AL

## COLORS

Color / RAL 9003 Signal White  
Color / RAL 2002 Calder Flamingo Red  
Color / RAL 7021 Mies Grey  
Standard Finish / High-gloss  
Pure Polyester color-coat + Epoxy base-coat

## OPTIONS

Components in Stainless Steel 304.  
Components in Stainless Steel 316.  
Custom colors.  
Alternate Finish / Smooth Matte.  
Alternate Finish / Bare Metal Brushed for  
Stainless Steel and Aluminum products.

## NOTE

Minimum order quantities are  
required for custom colors  
and alternate finishes.

Please enquire.

RAL 2002 Calder Flamingo Red

RAL 7021 Mies Grey

RAL 9003 Signal White

# Soft Materials & Colors

## 100% Wool Felt\_Magnetic Seats

Felt and soft materials are typically produced in specific lengths and widths. So that we can minimize waste, minimum orders are 25 pieces per color.

### WOOL FELT

Made of 100% natural wool. Softly textured.  
Naturally water, wear and smell resistant.  
Snap on and off magnetically.

### WOOL FELT COLORS

Un\_dyed Brown from brown sheep :)  
Un\_dyed Off-White from white sheep :)  
Un\_dyed Black from black sheep :)  
Un\_dyed Grey from black + white sheep :)

Speckled Mustard  
Red Red  
Speckled Earthy Green  
Speckled Deep Purple

### ALTERNATIVE / 100% SYNTHETIC FIBER FELT

Synthetic Felt made from recycled plastic bottles is also available as a special order. Tough, resistant to abuse. 100% recyclable. Please enquire about colors and pricing.

### OPTIONS

More colors are available.  
Client-provided soft materials can also be used.  
Quantity-specific pricing for a smaller or larger number of pieces is possible. Please enquire.

### NOTE

Natural materials, like wool from sheep, can show small variations from batch to batch. We prefer this over sterile, machine-like consistency.

# Ultra-Soft Materials & Colors

## 100% Wool Pile\_Magnetic Seats

### DOLLY

Magnificently soft.

For such a soft material, Dolly is also surprisingly tough. Made of 100% natural wool fiber, bound to a 100% Polyester substrate.

Snap on and off magnetically.

Dolly is special order only.

### DOLLY COLORS

Un\_dyed Off-White from white sheep :)  
Un\_dyed Brown from brown sheep :)  
Un\_dyed Brown Grey from many sheep :)

### OPTIONS

Client-provided soft materials can also be used.

Quantity-specific pricing for a smaller or larger number of pieces is possible. Please enquire.

### NOTE

Natural materials, like wool from sheep, can show small variations from batch to batch. We prefer this over sterile, machine-like consistency.

# Bespoke Finishes, Patterns, Materials

## OPTIONS

HS products are available in bespoke finishes, patterns and materials, like Titanium alloys.

We love nutty experimental stuff, and we believe that pretty much anything is possible.

Shown here are client-requested patterns. These are test pieces, there are thousands of more pattern and color options available.

We're local - happy to meet, design, and figure special stuff out together.

Please enquire.

# Custom Logo & Mark

## OPTIONS

Personalize HS Products with your logo or distinct mark. .

Shown here is the first in a customized set of 10 Limited Edition stools for a design museum, individually marked 1/10 - 10/10.

If it can be laser-cut, it's possible.

Let's talk.

# Sizes & Specifications

## ACTUAL vs. NOMINAL SIZES

Raw materials are made in standard sizes, such as 4'X8'. When machined to a tabletop, the resulting size is a bit smaller, 3'10"X7'10".

- 3'10"X7'10" is the actual size
- 4'X8' is the nominal size.

Since it is easier [and quicker] to think in terms of whole numbers rather than fractions, we typically mention nominal sizes / dimensions. This is also standard practice across the architecture and building industry.

Please enquire ahead of time whenever dimensions are super critical.

## SPECIAL SIZES FOR SPECIAL PROJECTS

For special projects, or large projects, it is possible for us to have raw materials manufactured in larger sizes, smaller sizes, or more efficient sizes. Please enquire.

[contact@honeststructures.com](mailto:contact@honeststructures.com)

## CHANGE FOR THE BETTER

HS refines product designs to make them better. As such, details on the same products may vary from one batch to the next, especially over extended periods of time.

# Re-use, Refurbish & Recycle

## OVERVIEW

HS Products are Guaranteed for life.

This means that they're designed and made to last forever with regular use [not abuse].

We all know that things happen and sometimes products are damaged. What then?

1. **RE-USE** / HS products are engineered to be taken apart without tools. They are modular in design, and they are assembled without welds or glues. Replace a damaged part with a new one, re-use the rest, and you're done.
2. **REFURBISH** / Through heavy use, products can get scuffed up. Or maybe you'd like your table in a new color after a few years? We can refinish steel components at any time, and replace Richlite and plywood tops.
3. **RECYCLE** / If any parts are impossible to salvage, they can be cleanly recycled. Steel components are recycled into new steel, Richlite can be sent back to the manufacturer and turned into new material.

## HS Stools, Benches, Chair

Versatile and tough products for sitting on, keeping things on, sometimes standing on.

Available in a wide range of sizes.

Custom variants can be designed and made for reasonably-sized orders.

Custom can be taller / shorter / wider / narrower versions of standard components, special shapes, colors, and personalized with your logo.

# HS Stool Standard Height

## OVERVIEW

Small. Mighty. Multi-functional.

Available with smooth or perforated seat.

Available with and without shelf.

- Where stacking is important, use stool without shelf.
- Where storage is important, use stool with shelf.

With shelf, works very well as a compact perch by an entryway - holds shoes, a quick spot to sit on the way in or out.

## DIMENSIONS

# HS Chair 1

## OVERVIEW

Instantly recognizable as being very different from any other chair.

A highly technical approach to creating an everyday product, using the most advanced means and methods of our time. Just 3 parts, each laser-cut from high-strength alloys:

- CRCA Steel [heavyweight] OR
- 6061 Aluminum [ultra-light].

It is a study in a minimal and responsible approach to design, technology and materials.

Made for a supportive upright posture - at a cafe, a library or a gallery, a home or a place of work.

## DIMENSIONS

H [seat]: 450mm / 18"

## OPTIONS

Ultra-light in 6061 Aluminum.  
Available in Stainless Steel 304.  
Available in Stainless Steel 316.  
Custom colors.  
Personalized with your logo.

## NOTE

Custom colors [at no charge] and custom sizes [no charge for small differences] require minimum order quantities of 25 pieces.

## Applications

- Creative Workspaces and Design Studios
- Cafes and Casual Dining
- Libraries, Academic Institutions, Bookstores
- Dorms and Compact Apartments
- Co-working and Co-living
- Camping and Outdoor Living
- Ultra-Clean Medical Spaces [Stainless Steel]

## Intelligent Design for the Everyday™

We design and make furniture and organization systems. Our products look good, are highly functional, and are easily customized and configured to your requirements. We laser-cut, curve and fold hi-strength alloys into fluid, seamless, precisely manufactured products.

## HS on Sustainability: Better Stuff = Less Stuff

It is our belief that assuming responsibility for what we bring into the world assures best practices. Sustainability can never be a footnote. At HS, it is at the core of how we think, how we work, how we make.

We use only the finest materials to make products that can last forever. They can be refinished and refreshed whenever you'd like.

To ensure your installation looks and feels good for years [not weeks], we don't follow trends. We design original, timeless products.

Products made with mixed materials can only go into landfills. We use no mixed materials.

HS products disassemble completely as easily as they assemble, in seconds. So they are fully recyclable with very little effort.

We feel it is a more sustainable practice to buy fewer, better products. Our products are guaranteed for life.

### **Beautiful and highly functional**

At HS, we believe that the beauty of a product comes from how it's made, what it's made of, what it does and how well it works. Cool to the touch, smooth, easy to clean.

### **Space-saving smart investment**

Space utilization is 10-13% more efficient with modular HS system-based products. Use the extra space for greater revenue generation, or reduce built footprint and capital investment.

### **Responsible**

HS makes the cleanest, most responsible line of products of their kind anywhere in the world.

### **Modular and customizable**

Products across the entire HS Collection are designed to work well together. Our approach tailors products to your specific requirements. In any color. At no extra cost.

### **Assembles fast, lasts forever**

HS products interlock within minutes, so you're up and running in hours, not weeks. Rather than replacements, consider a refresh or change of color. Think long-term. Invest once and done. Guaranteed for life.
